Dear Colleagues:

We are pleased to invite you to join us for the upcoming *April 25, 2015 Primary Care Psychiatry Foundation (PCPF) conference entitled: Trauma Across the Lifespan* held at Marion University College Of Osteopathic Medicine; 3200 Cold Springs Road Indianapolis, IN 46222.

The effects of trauma ripple through all primary care and psychiatric practices and can manifest in a multiplicity of physical and psychiatric ways across the lifespan and across multiple generations. We are now beginning to understand epigenetic mechanisms of transmission of trauma from mother to child such that the child is more vulnerable to the development of medical and psychiatric illness, including psychosis. The conference will begin with a case example of the treatment of trauma in a psychotic child. Some of the most damaging trauma comes at the hands of those we are meant to trust. The second presentation focuses on physician boundary violations and their impact, while the keynote will focus on attachment trauma. Many individuals with PTSD continue to struggle with impairing symptoms. A subgroup of these will respond very favorably to EMDR (eye movement desensitization response) and this form of treatment will be the focus of the third presentation.

The behavioral, cognitive, and psychodynamic treatments continue to be the mainstay of trauma treatment but there is certainly an important place for the adjunctive use of medication both in the treatment of trauma and comorbidities. The psychopharmacologic treatment will be explored with some focus on the benefits of early intervention.

**AGENDA**

7:30-8:00am  
Registration and Breakfast

8:00-8:15am  
Welcome and Introductory Remarks

8:15-9:00am  
Treating Trauma in a Psychotic Child

Schrodinger’s Doctor: Circumscribed Boundaries, Boundary Transgression, Boundary Violations and Client Trauma

9:45-10:30am  
EMDR

10:30-10:45am  
Break

10:45-11:15am  
Expert Panel Discussion (Morning Presenters)

11:15-12:00pm  
Box Lunch and Drink

12:00-12:45pm  
Trauma – Informed Psychopharmacology

12:45-2:00pm  
Attachment Trauma

2:00-2:30pm  
Expert Panel Discussion (Afternoon Presenters)

2:30-2:45pm  
Evaluations, Q and A, and Wrap-up

Take this opportunity to register as an attendee for the April 25, 2015 Primary Care Psychiatry Foundation conference.

Sincerely,

Joshua Lowinsky, MD  
Primary Care Psychiatry Foundation Co-Founder
Why Attend the Primary Care Psychiatry Foundation (PCPF) Conferences?
Your attendance positions yourself and your organization as a community leader in efforts to move the vital work of the Foundation forward: to educate and train primary care physicians, other professionals, and individuals within systems of care in the early identification, accurate diagnosis, effective treatment and appropriate referral of patients with psychiatric disorders locally, regionally, nationally, and worldwide.

Yes, I will attend the Primary Care Psychiatry Foundation Conference:
Trauma Across the Lifespan On April 25, 2015

Continuing Education Information

Registration Fees:
On/after March 1, 2015  $130 MD/DO  $25 Resident  $115 Other professionals  $15 Student

Refund Policy: There are no refunds, however the registration may be transferred to another attendee by notifying the organizer via email (arbeard10@gmail.com).

Statement of Need: The effects of trauma ripple through all primary care and psychiatric practices and can manifest in a multiplicity of physical and psychiatric ways across the lifespan and across multiple generations. We are now beginning to understand epigenetic mechanisms of transmission of trauma from mother to child such that the child is more vulnerable to the development of medical and psychiatric illness, including psychosis. The behavioral, cognitive, and psychodynamic treatments continue to be the mainstay of trauma treatment but there is certainly an important place for the adjunctive use of medication both in the treatment of trauma and comorbidities.

Audience: This activity is designed for physicians, nurses, pharmacists, psychologists, social workers and other healthcare providers that interact with patients with addictions across the lifespan

Learning Objectives:
1. Recognize the multiple types of adverse events that may lead to psychiatric disorders
2. Define boundary violations and educate the impact they have on both the physician and patient
3. Define effective treatment options for trauma patients and their comorbidities- including EMDR and psychopharmacologic methods

Physician Accreditation Statement: This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education through the joint sponsorship of Purdue University College of Pharmacy and the Primary Care Psychiatry Foundation. Purdue University College of Pharmacy, an equal access/equal opportunity institution, is accredited by the ACCME to provide continuing medical education for physicians.

Credit Designation - Purdue University College of Pharmacy designates this live activity for a maximum of 5.75 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Pharmacist Accreditation Statement: Purdue University College of Pharmacy is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education. This is a knowledge based, continuing education activity of Purdue University, an equal access/equal opportunity institution. Universal Activity Number (UAN): 0018-9999-15-016-L04-P, 5.75 contact hours (.575 CEU)

Nursing: Purdue University Continuing Nursing Education is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center’s Commission on Accreditation. Application for credit has been made.

IPFW is approved by the American Psychologists Association to sponsor continuing education for psychologists. IPFW maintains responsibility for this program and its content. Application for credit has been made.

Faculty Disclosure Statement - All faculty AND staff involved in the planning, review or presentation of continuing education activities sponsored/provided by Purdue University College of Pharmacy are required to disclose to the audience any relevant commercial financial affiliations related to the content of the presentation or enduring material. Full disclosure of all commercial relationships must be made in writing to the audience prior to the activity.

Full speaker disclosure will be made in writing prior to the conference on April 25, 2015

All additional planning committee members, reviewers, Primary Care Psychiatry Foundation and Purdue University College of Pharmacy staff have no relationships to disclose.

Required for Completion - To receive credit, you must attend and participate in all sessions. At the end of the end of the conference, you will be given an URL in order to complete the activity evaluation and request for credit online. The online evaluation will be available for 10 days. You will receive your credit documentation via email within 6 weeks and pharmacist’s credits will be uploaded to CPE Monitor within 60 days.

Accreditation questions may be directed to Dawn Sinclair at Purdue University via email sinclaid@purdue.edu. Certificate and CPE Monitor questions may be directed to Jodie Wallace via email wallac35@purdue.edu.
