Primary Care Physicians  
Psychiatrists  
Nurses  
Mental Health Care Providers  
Other Health Care Professionals

**JOINTLY SPONSORED BY:**

**Small Hospital. Big Medicine.**

## DESCRIPTION

The conference format has changed to increase interactivity and focus on the areas each speaker considers most important and controversial within their respective areas of expertise.

*Clinical Controversies in Neurodevelopmental Disorders* focuses on ADHD, learning disabilities and autism spectrum disorders across the lifespan. These neurodevelopmental disorders occur commonly in children and adults. Until recently these disorders were considered disorders of childhood rather than lifespan disorders. Thus, few are familiar with their presentations across the lifespan. As children and adolescents age, more visible comorbidities make these "hidden disabilities" challenging to identify.

## OBJECTIVES

As a result of this conference participants will be able to:

- 1) Identify five key questions used to differentiate learning disabilities, intellectual disabilities, ADHD and autism spectrum disorders.
- 2) Recognize five medical conditions strongly associated with autism.
- 3) Discuss three research-based nonmedical interventions for autism spectrum disorders.
- 4) List four common psychiatric comorbidities of ADHD and four medical mimickers of ADHD.
- 5) List three risks and benefits of ADHD pharmacologic treatment.
- 6) Utilize case scenarios to determine when neuropsychological testing would be valuable.

## AGENDA

7:30-8:00 a.m.	Registration & Breakfast
8:00-8:15 a.m.	Welcome & Introductory Remarks <i>Kim Gatzimos, M.D.</i>
8:15-9:00 a.m.	Intellectual Disabilities & Learning Disabilities (including Nonverbal Learning Disabilities) Throughout the Lifespan <i>Julie Steck, Ph.D.</i>
9:00-9:45 a.m.	Autism Spectrum Disorders: Differential Diagnosis, Work-Up, & Medical Treatment <i>Luis Escobar, M.D.</i>
9:45-10:30 a.m.	Autism Spectrum Disorders: Nonmedical Treatment <i>Julie Steck, Ph.D.</i>
10:30-11:00 a.m.	Break & Refreshments
11:00-11:45 a.m.	ADHD: Diagnosis Across the Lifespan <i>Joshua Lowinsky, M.D.</i>
11:45-12:30 p.m.	ADHD: Treatment Across the Lifespan <i>Syed Khan, M.D.</i>
12:30-1:15 p.m.	Neuropsychological Testing <i>TBA</i>
1:15-1:30 p.m.	Evaluations, Q&A & Wrap-Up

## SPEAKERS

**Luis Escobar, M.D.**, is a St. Vincent's pediatrician and clinical geneticist with expertise in complex neurodevelopmental disorders.

**Syed Khan, M.D.**, is a child, adolescent and adult psychiatrist, Chairman of the Department of Psychiatry at Community Health Network and President of Serenity Medical Group.

**Joshua Lowinsky, M.D.**, is an adolescent and adult psychiatrist and partner at CRG, and the cofounder of the Primary Care Psychiatry Foundation.

**Julie Steck, Ph.D.**, is a clinical psychologist and partner at CRG with expertise in the diagnosis and treatment of neurodevelopmental disorders in children.
